

Sikafloor® Marine-107

ULTRA LIGHT-WEIGHT SELF-LEVELLING DECK COVERING

- Ultra-light weight
- Outstanding self-levelling properties in thin layers

BUILDING TRUST

Sikafloor® Marine-107

Sikafloor® Marine-107 is a one component ultra-light weight and self-levelling mortar based on polymer modified cement. The product is applied on interior decks, to level the surface prior to the application of deck finishing materials such as carpets and vinyl. It is suitable for application in dry, light traffic accommodation areas.

For specific applications consult the product data sheet or contact your Sika Technical Service.

PRODUCT BENEFITS

- Excellent self-levelling properties
- Ultra-light weight
- Water based one component
- Great pumpability
- Non corrosive
- Non toxic

AREAS OF APPLICATION

- For interior decks
- Suitable for application in dry light traffic accommodation areas
- Prior to the application of deck finishing materials such as carpets and vinyl

Typical Product Data	
Chemical base	1-component polymer
Density	0.7 kg / m ² / mm
Applied thickness	3 - 10 mm
Ready to walk on	12 hours
Compressive strength	8MPa
E-Modulus	2.3 GPa
Shelf life	12 months

Our most current General Sales Conditions shall apply.
Please consult the Data Sheet prior to any use and processing.
